

ATTENTION!

PA SCIENCE OF READING COURSE (FALL 2024)

This course is designed to build participant knowledge about the science of reading. It also serves as part of the professional development requirement for K-8 teachers as detailed in PA legislation. While it is intended to address the Kindergarten through 2nd-grade levels, the information applies to all beginning and struggling readers, regardless of age.

This FREE, self-paced, Schoology Course will be available from 9/23/24 through 12/31/24.

Participants who complete the course will receive 10 Act 48 credits.

Objectives

Participants will be able to:

1. Define the terms science of reading and structured literacy
2. Understand what research explains about the reading brain and the implications for instruction
3. Identify the structured literacy components in classroom practice examples
4. Synthesize course content to develop a personal plan for aligning practices to the science of reading
